Mr. Jorgenhauer
Used to Worry

Because his advertisements in the local papers didn't
seem to attract attention—didn't draw a crowd to his
store and help him to sell goods.

NOW HE DON'T WORRY

Why? Because he has found that he can get fifty first-
rate ads, chuck full of suggestions, the best that are
appearing in his line to newspapers the country over for
a dollar—and that with their help it is mere play to
get range ads which fill the bill to a "T." You can do the
same. All lines. Send a dollar to

THE GREAT PRESIDENTIAL CAM- PAIGN OF 1900.

The politics of the great political
party are now being formed, and the man-
dates discussed. The voice of the people
is recorded by ballot at the approaching
Presidential election will probably
decide the policy of the nation for the
next four years.

The great question now before
the people is this: Can we do better
through the medium of a great news-
paper? Now is the time, therefore, for
every voter to subscribe for the best
and most reliable newspaper obtainable.
The new Weekly Republic covers the whole
field of political news. While it is dis-
cussing the politics of the day, it is also
publishing the news in regard to
all political parties without prejudice.
Its readable and reliable news service is
superior to that of any other paper.
Its special features are the best. In fact,
it is the paper for that large class of read-
ers who cannot afford to do without an
addition to the daily papers.

Attention is also called to the Repub-
lic's Sunday Magazine. Its full line of
illustrations alone are worth the subscrip-
tion price. It is made up of special arti-
cles by the best literary talent, embrac-
ing a variety of current subjects of in-
terest. New features of absorbing in-
terest are illustrated and explained upon
the board of the latest illustrations. The
Republican Magazine is also a very inter-
esting to every member of the family.
The subscription price of the Semi-
weekly Republic is \$1.00 per year. The
Republican Sunday Magazine is \$1.25 per
year. Both papers are now being offered
at the very low price of \$1.20 a year. To
secure this low rate both must be ordered
and paid for at the same time.
Address all orders to THE REPUBLICAN
at Louisville, Mo.

out at Cost.

The agitation to raise a subscrip-
tion to build a county court House at
Fulton is premature, and can only have
the effect of preventing for a time the
building of a court house, suitable for
holding the court and preserving the
county records. Fulton is a thriving
town and enjoys the advantage and
good will of all, but it is at one end of
the county, forty miles from the other
end, and therefore far remote from the
mass of population. Such a move re-
quires a two-hundred vote. An election
cannot be held until Nov. 1901.

TO INCREASE PENSIONS.

General Wilber R. Smith, Sec-
retary and Treasurer of the Na-
tional Association of Mexican War
Veterans, is making an earnest
effort to have the pensions of the
veterans raised from the present
rate of \$5 a month to a sum which
would make them independent.
At the last meeting of the As-
sociation held in Indianapolis,
September 13 and 14, a resolution
was unanimously passed request-
ing the United States government
to increase the existing pension
rate. Acting on the resolution,
General Smith is sending out let-
ters to Governors of States, Sen-
ators, Representatives and other
prominent men, asking their aid
and co-operation in the matter.
There are just 2,204 Mexican
War veterans on the pension roll.
They have now reached or passed
the age of 70 years, and 10 per
cent are unable to engage in any
occupation or profession. It is
estimated that in two years the
number will be decreased to 3,000
and in twenty years very few, if
indeed, if any, will be living.
The pension asked is thirty dol-
lars a month, and with the num-
ber of survivors so small and the
annual death rate so large, the in-
crease would mean very little to
the government. General Smith
is said, has already received as-
urances of assistance from a
number of prominent men. It is
intended to bind all endorsements
of the pension measure into book
form and submit them to Pres-
ident McKinley.—Lexington Trans-
cript.

BIG UNDERTAKING.

Except a comparatively small
circle of engineers and tabular
students, few persons in the
United States have any idea at
all concerning the immensity of
the great undertaking known as
the Transcontinental railway. It
was shown in the auditing com-
mittee, published several months
ago, that nearly 375,000,000 rails
have been expended upon it in 14
years. It required not only a
limited reconstruction, but undoubted
courage on the part of the promoters
of this gigantic enterprise to
build a railroad thousands of
miles long, through a region un-
subdued for the most part char-
acterized by the most inhospitable
climate, and to expend hundreds of
millions of dollars in carrying out
the task.

The work has been carried
through by the Russian Govern-
ment, partly at a military neces-
sity, and partly for the purpose
of opening up a large territory to
settlement.

The Russian presents have
been of great assistance in
immigrating to Siberia, and thou-
sands have already availed them-
selves of the opportunity. They
have been largely for the purpose
of opening up a large territory to
settlement.

His HAND WRITING.

[Union City Commercial.]

A countryman from Bay-
on De Chain, where a Hickman, was
in our office Saturday, and in the
course of conversation expressed
a wish to see an old friend at
Troy. We informed him that we
could find him over the phone. The
countryman had never seen a tele-
phone, and after we had gotten
the man at Troy to the telephone
we handed our visitor the num-
ber which he placed to his ear. He
listened a moment and then ex-
claimed:

"I'll be darned if that ain't Bill's
voice!" Then he hung the ear-
piece up and tapping the battery
box significantly and knowingly
said:

"Now, open her up and let me
see what he's writ. I'd know his
hand write any whar, an' if he
writ through this thing, I'd know
it," taking down the ear piece,
"I'll talk to him and tell him what
I want to."

We informed him that a letter
didn't come with the message, and
looking at us with his mouth wide
open he exclaimed:

"Well I'll be god darn I'd."

Armed and Harassed.

Latest advices from Manila in-
dicate that Aguinaldo and his ar-
my have not escaped but are now
practically surrounded. The Am-
erican forces are closing up, and
Maj. Gen. Otis reports that Young
is believed to have established
communication with Wheaton.

How Goes the War.

The newspapers print daily ac-
counts of the war in the Philip-
pines, but it cannot be said that
our people feel any exciting inter-
est in the progress of the war. We
suppose the reason of this is be-
cause the Philippines are not suf-
ficiently formidable to cause any
serious disaster to the U. S. fore-
e, and because all our people re-
alize that it is only a question
of time when the Philippines are
compelled to surrender to our su-
perior forces. The Philippine army
seems to know they cannot risk
any general battle, and therefore
their system of warfare is more
harrassing, for as our army ad-
vances they fall back, their army
centers, to reappear at weak and
unexpected points. This is what
we call in this country guerrilla
warfare. But none the less it
prevents the U. S. from estab-
lishing a permanent Government
all over the islands. How long
this mode of warfare can be kept
up remains to be seen. It would
be infinitely better for the Phil-
ippines to surrender, and trust to
the magnanimity of the people of
the United States.

The Love Election in Lake.

The recent election in Lake
county to issue \$50,000 in county
bonds to build a levee on the west
side of Reelfoot Lake, resulted in
favor of the subscription by about
4 to 1. It is expected that this
proposed levee will reclaim from
overflow about three-fourths of
Lake county, but none of Obion,
Dyer, or Fulton counties. This
levee is, however, only alternative,
to be built only if the money
cannot be raised to build the
Hickman and Tiptonville levee.

Representatives will again convene
Obion, Dyer and Fulton counties
in the effort to raise the additional
help; and have already been be-
fore the Mississippi River Com-
mission asking the Government
to make an allotment, and there is
but little doubt but that the River
Commission will do so, provided
Congress, which meets in Decem-
ber, makes the usual River and
Harbor appropriation.

HOW TO MAKE FARMING PAY.

There is in Topeka, Kansas, a
woman who, two years ago, was
divorced from her husband, but
who is now happily married again,
who yonsee for a story that has
been passed around Kansas with-
out exciting entire belief. Six
years ago a farmer in Osage
county conceived a novel scheme
for amending his finances. He ad-
vertised in an English paper that
he had opened a school for the
teaching of English farming, and
for \$400 a year, over a course
of three years, he would accept a
limited number of pupils. In due
time he received some responses
to his advertisement, and finally
four young Englishmen actually
came over and took up the course
of instruction. For three full
years the farmer worked these
Englishmen at plowing, harrowing
and other farm work, collecting
from them \$400 each a year, and
in return supply them with nothing
but board. At the end of the
three years they were given a cer-
tificate which recited that they
had served a full apprenticeship,
and were entitled to be regarded
as expert farmers. On the day of
graduation these young English-
men gave a celebration to which
all the neighbors were invited,
and there was much feasting and
drinking.—Kansas City Journal.

The Hope of Farming.

If agriculture again rises to
that prominence it once held in
the south it must come through
diversified farming. It must come
through the door of business prin-
ciples and independent action. It
must come by having our crops
and markets for surplus
products at our doors.—Arkansas
Gazette.

ISHARD PRESSED

Col. Hayza Captures Aguinaldo's Private Secretary and His Escort.

The insurgents are retreating toward Pangasinan, where the capital has been transferred. Again the air must be the trap of Gen. Hayza.

MANILA, Nov. 14.—American news practically closed the trap in which it was intended to catch Aguinaldo and his army. The first capture was Aguinaldo's secretary and his escort of 175 bolomen. The capture was made by Col. Hayza near Carrangian. Gen. Lawton led Carrangian. His advance, led by John, is at Lupo Tayan. San Nicolas, stretching in a semicircle toward the Gulf of Lingayen.

MANILA, Nov. 14.—The whereabouts of Aguinaldo and his army and cabinet is a perfect enigma. Gen. Hayza has learned that Aguinaldo recently issued a proclamation transferring the capital to Pangasinan, giving as a reason for the step the unsatisfactory condition of Manila.

It is supposed that the leaders of the insurrection who are not already at Pangasinan are retreating to that place, though when they left Tarlac, whether they are traveling with the army, how many soldiers they were able to hold together and whether the leaders of the troops have got beyond Gen. Lawton's line are uncertain.

It is hoped, however, that Gen. Wheaton has effected a junction with Gen. Young, forming a corps from San Fabian to San Isidro. Gen. Lawton has 600 men and Gen. Wheaton 3,700—a small force to control so many miles, but it commands the main roads by which the insurgents must move to the northeast.

With the Americans advancing at the present rate, they could drive the insurgents from Pangasinan in a fortnight, and it is impossible for the rebels to establish another capital in Luzon which can not be captured within a month.

The rapid approach of the Americans was a complete surprise to the insurgents, as the latter expected them to move slowly, as they did from Manila to Angeles. The Filipinos thought it impossible for the Americans to make headway in the mud which prevailed everywhere, and the sudden invasion astonished the natives along the line of Gen. Young's march. It has been told that the Americans were confined to the suburbs of Manila.

Maj. Marsh's battalion of the 83d reg. moved, which included the old rough riders from the southwest, attacked 400 Filipinos three miles from San Fabian, on the Dagupan road, on Friday. The Filipinos had been firing at the outposts. Maj. Marsh found them entrenched across the river. Their trenches had been made after Gen. Wheaton's march. The rough riders charged them, a portion of his battalion fording the stream and part crossing by the bridge.

When the Americans approached the Filipinos, afraid to show their heads, picked their rifles above the trench and fired blindly. Maj. Marsh's force pursued them for a mile. Fourteen dead Filipinos were left behind, and the lieutenant colonel commanding on the field. Two Americans were wounded.

The insurgents have resumed their activity in the Cavite province, threatening an attack on Imus. Yesterday they attacked Calamba in the usual fashion. A night's fusillade between the militia and the 100 hundred insurgents who have again intrenched themselves on the isthmus between Cavite and Novelda is plainly heard in Manila. On Saturday the Filipinos attempted to entrap the marines by landing a force from canoes behind them. The searchlights of the Petrel discovered the preparations for attack, and a few shots from the Monahans and Petrel's guns spoiled the game.

Three More New Trainers Wanted. WASHINGTON, Nov. 14.—The construction board of the navy department, at its meeting Monday, took up the subject of new construction in the navy for the coming year. This was at the request of the secretary, and will form the basis of his recommendations to congress for new vessels during the coming session. This matter is confidential, so it may be said that the secretary is expected to renew his recommendations for three new cruisers of the improved Olympia type, such as congress failed to appropriate for last year.

Legal Hanging in Mississippi. YAZON, Miss., Nov. 13.—On Sanderson, a notorious Negro murderer, thief and a natural crook, was hanged here Monday for the murder of Deputy Sheriff Stomastreet and Brown. In the county in July of last year.

Playing Mines in London. MINNEAPOLIS, Minn., Nov. 14.—A special from Virginia, Minn., says it is reported from reliable sources that the Minnesota Iron Co. has purchased the Nelson Lumber Co. a mine, and a few miles from the Mesha range. The consideration was \$1,000,000.

Hollenders Condemned England. FULTON, Ill., Nov. 14.—A thousand Hollenders are an enthusiastic meeting here Monday night and passed resolutions of sympathy for the Boers and condemnation of England.

IN THE FAR EAST.

Nothing Known Among British Diplomats of an Aggressive Action by Japan and China Against Russia.

LONDON, Nov. 14.—Careful inquiries reveal nothing about in diplomatic circles here to justify the alarmist view taken by a section of the press regarding the situation in the far east. That a serious development is in course of hand is indicated by reports from Shanghai during the last 24 hours is regarded as incredible. For a long time it has been known here that China and Japan were closely allied, but neither British nor American diplomats could believe that this alliance was of an offensive nature.

At any rate it can be viewed positively that Japan and China cannot combine aggressive action against Russia. Lord Salisbury is not aware of their intention, and it is scarcely probable that those powers would decide upon any definite course without at least consulting the British view, in the nature of things, would be their ally, whether active or passive.

However, while the foreign office has no information tending to confirm recent sensational reports, they have come to regard the eastern problem as so difficult in respect of getting accurate information that they would be surprised at nothing. The latter endeavored to take precautions against anything. In the words of the British official "while reports of capture between Russia and Japan are easy of credence, and while they are liable to constant revision, so long as the diplomats of the press continue to view the far east with such serious attention, it is certainly probable that if Japan really means to strike a serious blow at Russia control she must do it quickly, for very soon Russia will be far stronger than she is now."

Discussing the bearings of Russia's new naval estimates upon this question, the official asserted that there certainly indicated the intention of the czar to increase the Russian fleet in Chinese waters which, if done on the "another phase" of these reports which has astonished me," and the official, "is the suggestion of Chinese cooperation. That far so anxious, has been able to arouse the Chinese sufficiently to get them to combine in military enterprises. If Japan has done this, or even believes she has, then she has accomplished what the Chinese fleet in Russian waters in a century of effort."

The action of the United States government in requesting congress to authorize foreign governments regarding the "open door" policy in China has created intense satisfaction in British official circles. Lord Salisbury, according to the official quoted above, "has gladly acquiesced in this step on the part of America. That far so anxious, has been able to arouse the Chinese sufficiently to get them to combine in military enterprises. If Japan has done this, or even believes she has, then she has accomplished what the Chinese fleet in Russian waters in a century of effort."

WENT ON A REEF.

The Cruiser Charleston, While Patrolling the Northern Coast of Luzon, Wrecked—All on Board—Are Saved.

MANILA, Nov. 14.—The United States cruiser Charleston, which had been patrolling the northern coast of Luzon, was wrecked on a reef off the northern coast Tuesday, November 7. All on board were saved.

The cruiser Charleston which was built in San Francisco in 1896, had a displacement of 3,750 tons, was 312 feet 7 inches in length, 46 feet 2 inches in beam and 21 feet 8 inches in draught. She was of steel, having two propellers, one funnel and two masts in military tops.

She had the following armament: Two 8-inch guns, six 6-inch guns, four 3-pounders, two 3-pounders, six 1-pounders, two machine guns and one light gun with four torpedo tubes. She had a complement of 360 men.

Washington, Nov. 14.—The Charleston has been in Asiatic waters for more than a year. She was one of the first vessels to be sent to Manila after the destruction of the Spanish fleet by Admiral Dewey. The navy department utilizing her for the purpose of sending ammunition and other supplies for the Asiatic station. Just previous to her assignment to duty she had been overhauled at the Mare Island navy yard, San Francisco, and therefore was in prime condition for her duties.

Washington, Nov. 14.—The Charleston is one of the vessels of more recent construction and belongs to that class which is commonly referred to as the "new navy." She has a full complement of officers and crew. Lieut. McDonald describes the Charleston when he last saw her as hard and fast ground, with her bottom bare, and well out of the water. She had a goodly amount of stores on board, and she had been overhauled at the Mare Island navy yard, San Francisco, and therefore was in prime condition for her duties.

A TERRIFIC EXPLOSION. Magazine of Nitro-Glycerine Lotion Exploded, and a Man and Two Horses Were Killed in It.

TUFTON, O., Nov. 14.—A magazine used by Bradford's agricultural factory to store product of their factory, and located two and a half miles east of Gibsonburg, exploded Monday afternoon at 1:30. The shock was heard at towns within a radius of 40 miles, and the effects of the explosion in the immediate neighborhood were terrific. The magazine is located in the woods a quarter of a mile from any dwelling, and this alone prevented a terrible loss of life.

Benjamin Card, driver of stage wagon had brought a load of nitro-glycerine to the factory at Bradford and was in the act of unloading it when the explosion took place. Just before the explosion occurred he was in the act of unloading it when the explosion took place. Just before the explosion occurred he was in the act of unloading it when the explosion took place.

THE TENNESSEE REGIMENT.

Arrived San Francisco from the Philippines Saturday, and were warmly welcomed by the committee of Tennesseeans who arrived a few days ago, and the citizens of San Francisco.

San Francisco, Nov. 13.—The Tennessee regiment Col. Childers commanding, arrived here from the Philippines Saturday, and were warmly welcomed by the committee of Tennesseeans who arrived a few days ago, and the citizens of San Francisco.

The Tennessee volunteers landed Sunday morning at the city hall, and were taken to the Presidio preparatory to being mustered out.

On an interview Sunday, Col. Childers said: "I have a very high regard for Gen. Otis and his ability as a soldier and a statesman. He has held a most difficult position, and I think he has held it well. Of course he could have slashed and led the islands were with fire and sword, but to do this without effect, to show the natives that the United States wished to give them a fair, just and liberal government would have forever prevented American relations and it would have become a question of extermination and reconquest. The islands are too far away for such a policy, even if humanity and self-interest did not forbid it."

"In my opinion a force of 75,000 to 100,000 men is needed to promptly and successfully settle this. This force will have to be retained until the natives are friendly and take the oath of allegiance to the United States are strong enough to protect themselves, otherwise the natives will come down from the mountains, destroying the lives and property of all who are traitors," he said.

Corp. B. Price, of the Tennessee volunteers, was killed shortly before the regiment left the islands under peculiar circumstances. He was subject to epileptic fits, and he was in the habit of sleeping with a red cloth around his head to protect it from insects. One night while asleep he was seized by a fit, and as he was returning he was mistaken for a Filipino by a member of the 8th infantry, who shot him.

THE MURRAY-BROWN FIGHT.

H. D. Brown, George Keating, Ted Wilker and Charles Keating Fought on the Turf for Life.

NEWPORT, Ky., Nov. 12.—After a thorough investigation into the fight between Curley Brown and Dan Murray Thursday afternoon at the Newport track the judges Friday ruled on the fight for the life of the following persons: H. D. Brown, George Keating, Trainer Ted Wilker and Charles Keating. Wilker was implicated in the affair through handing Brown a pair of brass knuckles during the affair.

The Keatings, according to evidence presented, were in the room in which the fight took place and prevented Murray from escaping from his assailants when attacked by Brown. Both the Keatings have been employed by Starter Jack Holman as flagmen.

Brown is one of the best known turfmen in America. For several years he has been at Newport and several other tracks. This season he has been racing a stable of horses. He owns three of the fastest sprinters in the west in Merry Day, Gold Dike, and Dolly Wielder. Murray is still in a precarious condition, but the physicians say he will recover. His most serious injury is a gash in the back of the head.

To Present Alleged Prisoners. LEXINGTON, Ky., Nov. 11.—Twelve hundred citizens of all parties met at the opera house Thursday night to elect judges. Judge Geo. Denny and R. A. Thornton made addresses counseling force if necessary to prevent it. Col. W. P. Breckinridge and C. J. Walker spoke for temperance. The former pointed out how Bradley was under the constitution, continue governor until his successor is qualified, or until the federal court settles the question. One thousand dollars were collected to prosecute alleged frauds in this county.

Judge Keating Not Legally Elected. FRANKFORT, Ky., Nov. 13.—The court of appeals decided that Judge H. C. Keating was not legally elected district judge of the Twenty-seventh judicial district in November 1898, to succeed Judge W. L. Brown, who was appointed by Gov. Bradley to serve till the next regular election, was entitled to hold over till the election of 1899. The court said the election held at that time, county, city or district officers were to be elected.

Another Methodist School. BOWLING GREEN, Ky., Nov. 13.—The educational committee for the Louisville conference of the Methodist Episcopal church at Louisville, Ky., has decided to select a site for the building of another school similar to the Van Hook school at Ellettsburg, Ky. The school will be in the mountains. Glasgow, Campbellville, Burkesville, Columbus and Berea are all pulling for it. The committee will start to visit these places November 27.

Woman Charged With Shooting. WADSWORTH, Ky., Nov. 13.—Mrs. Wiley, widow of John Wiley, is charged with shooting at Dr. John F. Jess from her house, seriously wounding him. The attempt to assassinate the doctor has caused great excitement. The warrant against Mrs. Wiley was issued because she had been heard to threaten his life, it is said.

Milk Plant Burned. LOUISVILLE, Ky., Nov. 13.—The building occupied by the Frank Haidt Milk Co., at 200 East Broadway, was destroyed by fire Sunday morning, entailing a loss of about \$40,000. The building was a new one and was valued at \$50,000. The fire is thought to have been started from spontaneous combustion.

Drunk And Injured at Whaley. LOUISVILLE, Ky., Nov. 13.—George Hite, 7 years old, son of George Hite, of 1015 West Green street, was probably fatally burned by drinking kerosene oil Sunday night. The lad thought he was drinking whisky. He was taken to the hospital, but he died. The cause of the accident was not ascertained.

Three Regulators Reported Killed. LOUISVILLE, Ky., Nov. 13.—A special from Middleboro gave an unofficial report of the killing in Letcher county of three regulators, whose names were not given. The regulators, according to the story, were engaged in mistreating two old women, Mrs. Holbrook and Mrs. Clark, when they had a clash with a crowd of officers and citizens with result that the regulators were shot.

Woman Was Hanged. WINDYBROOK, Ky., Nov. 13.—Follesom Dennis McCarthy, William Jenkins and Charles Obery have been suspended by the Board of police commissioners from taking part in the election. They were given one month.

Majority for Taylor. PANAMA, Ky., Nov. 13.—The official vote as given by the county board Friday made Taylor for governor 20 majority.

May Contest the Election. HOWARD, Ky., Nov. 13.—Jas. M. Simmons, of this city, who is defeated for the state senate on the face of the returns, by Bishop Huntsman, rep. of Allen county, may contest the election.

Isabel M. Waters Expelled. LOUISVILLE, Ky., Nov. 13.—Samuel Stevenson Waters, of the firm of Waters & Garland, milling supplies, died Sunday of pneumonia. He was 81 years of age and leaves a widow and child.

Shot and Killed. RICHMOND, Ky., Nov. 13.—Irvine Johnson was shot in the forehead by Brock Mundy, who was in turn stabbed, perhaps fatally, by Johnson. Both were colored men and were in a fight. It was an old grudge.

THE HICKMAN COURIER.

George Warren.

HICKMAN, KY.,

FRIDAY, NOV. 17, 1899.

THE KENTUCKY ELECTION.

**Calmness, Fairness, Honor,
Should Outweigh All
Else.**

The result of the Kentucky election presents most serious conditions, but we have an abiding faith that fairness and honesty will prevail. For an immense majority of the people, Democrats and Republicans alike, want nothing else. The State campaign has been the most bitter in the history of the State, and, therefore, the way to reconciliation seems the more difficult. To begin with, an immense number of Democrats believe, and are thoroughly honest in the belief, that the Republicans stole the State of Kentucky for McKinley in 1896. This belief led to the enactment of what is called the Goebel election law. On the other hand, there are thousands of Republicans and many Democrats who, equally as honest, believe that the Goebel law was enacted by Goebel and others for the main purpose of counting the Republicans out of stealing the State if necessary. Unfortunately the vote in the State is very close, and each side believing that the other is capable of contemplating fraud and robbery. The COURIER is of the opinion that this great bitterness and distrust pervades more extensively to the active politicians, and that a great majority of the people want the election settled fairly and honestly, no matter who elects Governor. Who may be Governor, is a small thing compared to the honesty of the ballot. That irregularities occurred in the election, no one doubts; that there was some fraud, some dishonesty, some corruption, we fear is true; but it is, perhaps, bitterer to charge that such was all on one side.

In Nelson county, 73 votes were cast for Wm. S. Taylor and 1198 for Wm. P. Taylor. The County Commissioners gave Wm. S. Taylor, the Republican nominee, only the 73 votes, when in all truth the 1198 denied him were intended to be cast for him. They say that the law strictly forbids them being given him. However this may be, there should be some way to give these 1198 votes to Taylor, for they were honestly intended for him.

On the other side, in Knox and Johnson counties, it is said that these ballots were used, and that in one Louisville precinct 127 more ballots were counted than there were voters in the precinct, and that like frauds and wrongs were perpetrated in other parts of the State which increased Taylor's vote more than enough to offset the Nelson county advantage to Goebel.

Outside cannot determine the truth of such charges. But all honest men can say, and should say for the proper officers, to do countenance wrong and fraud, no matter by whom perpetrated or in whose favor, and let the man fairly elected be inaugurated Governor of Kentucky.

In 1896 enough Gold Democrats voted the Republican ticket to have Kentucky counted for McKinley, and this year enough Brown Free Silver Democrats voted for the Republicans to come very near, if they have not absolutely, given the State to Taylor. Tax for tax is fair play; but isn't it time for Democrats to stop such foolishness?

Impartial Means?

Richard Croker, in an interview published in the New York Herald, is reported to have said that anti-imperialism will be the chief issue made by the Democrats in the presidential campaign. He did not define what "anti-imperialism" was intended to mean, which he should have done, for all good Democrats do not construe the term the same way.

LOCAL NEWS.

We look upon the man with scorn Who always likes to blow his horn, And wherefore is it that? Because in boasting of the way His worth increases day by day He leaves us little chance to say Nice things concerning us?

—County Court was in session Monday.

—The new Governor of Kentucky should be inaugurated Dec. 15th.

—Mr. Watt Gardner, of Terrell, Tennessee, was in Hickman, Sunday.

—Mrs. Woodford Nailor, 80 years of age, died in Union City, Sunday.

—Several couples drove over to the ministers at Union City, last week.

—It never seems to a boy that he will some day know as little as his father.

—Says an old bachelor: "A wife is an attachment that makes a man busy."

—FURN—Steel frame Spectacles, on river road below Hickman. Call at this office.

—Don't hide your light under a bushel. It may make some one a peck of trouble.

—The wise merchant who expects to get his share of the season's trade will advertise.

—The family of Wm. Douglass left Saturday night for New Madrid, Mo., where they will reside in the future.

—The Lynchburg Herald has a type-setting machine, the first ever introduced into a country printing office in the South.

—For undressed Lumber of all kinds, apply to SHAW & WILLIAMS.

—The State Commissioners count the vote for Governor and State officers, Dec. 4th, the fourth Monday after the election.

—There will be some changes among our merchants next year, and the prospects are that trade will be increased and enlarged.

—You have no doubt observed that it is only after you have made a mistake that people begin to tell you how it could have been avoided.

—For Bargains in Jewelry call on Raine as he is closing his stock out at a big sacrifice.

—LOST At the Woodland Mills Barbecue and Confederate Reunion, gold rimmed double lens spectacles. Return to the Contractor office.

—Be kind enough to send the names of your visitors to us, or if you are going on a visit let us know. Then we will not disappoint your friends.

—The Baptist church at Union City, as a religious body, voted a petition to Congress not to permit Roberts, the Mormon, to take his seat in Congress.

—Even hunting is now all the rage among the country boys. Every available dog is muzzled into service, and our canine friends are in popular favor.

—The Women's Exchange, of Union City, asks any lady who would like a German or Swiss woman for housework to apply to the Exchange through the mail. SECRETARY, pro tem.

—Buy your Carpets and Mattings at H. Buchanan's Closing Sale.

—Lightning struck the house of Mr. C. B. Hackett, Tuesday morning, tearing the roof and nearly demolishing one room. Fortunately none of the family were injured, and fortunately the house did not ignite.

—The road tax was defeated in Hickman County by only 23 votes. Charles and Ballard adopted it, and refuse to change back to the old system. Next time it will win in Hickman County, and then Fulton will fall in line.

—We are here to stay and doing business at the old stand, opposite Wiggins' store. No one will appreciate your patronage more, or take more pleasure in trying to please you than our barbers. WILKINS, C. W. CALDWELL and H. R. FRY.

—A writer put the matter very aptly when he said: "Corn is loaned to pigs, cash and a good investment, safe and at a very large rate. A hog is a confederate; he will put ten bushels of corn in less space than a bushel measure. He has been styled a manufacturer of hams, lard, hair brushes, head cheese, tooth brushes, glass buttons, fertilizer, fat, bacon, knife handles, soap, whistles, sausage and satisfaction. He converts corn into coin and can buy what he will."

—To all my old customers that have Watches they bought from Buck Bros., I will clean them good and guarantee to keep time, for seven years.

—ABUSE in politics don't pay. Abuse of Goebel made votes for him and abuse of Brown made votes for Taylor.

—One of our exchanges, usually a very truthful paper, publishes the following, which, to say the least, is very funny: "A farmer recently hired a very inexperienced boy to look after the corn crop to help about the place. One morning he told the lad to salt the corn in the field. The boy took about a quart of salt and rubbed it all over the corn, working it into the ear. A gang of crows in the pasture scattered salt, and got after the corn. They liked all the hair off the calf's back and tried to lick the salt off, too. The farmer tried to catch the calf and wash it off, but the creature, thinking he wanted to lick salt, kept out of the way. The boy and farmer are all unhappy. The crows are the only ones who had the fun."

—Now is your opportunity to buy a pair of celebrated Brown Shoes. All go at cost at Buchanan's.

War is Woe.

The fighting in South Africa between the English and the Boers is represented as being very fierce and is attended with great loss of life. The cruelty of war is so terrible that it does look to be inhuman and brutal for nations to ever engage in it. Our Christian civilization should be able to avert war by amiable and reasonable terms.

Six Frightful Failures.

Six terrible failures of six different doctors nearly sent Wm. H. Mullin, of Lockland, O., to an early grave. All said he had a fatal lung trouble and that he must soon die. But he was urged to try Dr. King's New Discovery for Consumption. After taking five bottles he was entirely cured. He is positively guaranteed to cure all diseases of Throat, Chest and Lungs, including Coughs, Colds, La Grippe, Pneumonia, Bronchitis, Asthma, Hay Fever, Whooping Cough, Sore and Hoarse Throat free at all drug stores.

Act to Long Life.

Diagrams prepared by an expert for one of the largest insurance companies to illustrate the comparative longevity of clergy men, farmers, teachers, lawyers and doctors, show that 42 out of every 170 ministers of the gospel reach the age of 70. The farmers come next, their proportion for 70 years being 40 out of 170. Next come the teachers with 34; the lawyers 25; the doctors last with only 24 out of 170.

How a "Good Thing" Works.

The central method of trust or organization is to crush competition. Its main motive is to establish monopoly.

Should individual enterprises have the tenacity to embark in the production of any article which the trust is producing but one result will follow. The individual enterprise will be destroyed.

Competition and a trust cannot co-exist. A trust tolerates no division of profits with a competitor. Trade monopoly is its essence. Its reign means absolute monarchy over the market.

The tyrannous methods of trusts are felt in every household in the land. They are levying heavy tribute upon the necessities of life and driving the iron of exorbitant prices into the souls of dependent trades and industries. As a sample of their oppression of the latter, a contemporary points to the tactics pursued by the steel trust.

MARRIED.

STONE-HUDSON.

On last Wednesday evening at eight thirty o'clock, at the Cumberland Presbyterian church, in the city of Greenfield, Mo., Lowry Stone and Miss Ella Hudson were united in the holy bonds of matrimony, Rev. Anthony, pastor of the Cumberland Presbyterian church in Greenfield, performing the ceremony in his usual happy manner. The church was beautifully decorated and long before the time for the ceremony the church was filled with friends of both parties.

Mr. Stone grew to young manhood in Milan, and while he resided here, now were more popular in social and business circles. He was a lieutenant in Company K, 2nd Tennessee, and since he was mustered out has resided in Hickman, Ky. His bride is the daughter of Dr. Hudson, of Greenfield, and by her talents and beauty of person, has won a host of friends in and about Milan.

Menteloh's wedding march was beautifully rendered by Miss Ella Swearingen, and during the ceremony she played "Call Me Thine Own."

The attendants were Misses Ethel Lyon, Elizabeth Allen, Susan, Frances Shannon and Ruth Stone, and Messrs. A. R. Stone, Ira B. Taylor, Tammie Braswell, Fred Pearce and Chas. E. Pearce, Usters, Messrs. Sam Baker, Ernest Swearingen, Roger Groves and Ed Brewer.

The presents received were handsome and numerous from their many friends in different places.

Goebel at Home.

In his home county, Kenton, Goebel received 6,792 votes—a majority of 2,216 over Taylor. This does not look like his home people regard him as the "terrible squanderer" his opponents portray him to be in the late canvass.

Smallest Republic.

The smallest republic in the world is that of Tavorola, an island about 15 miles in diameter, with an average width of a little more than half a mile, situated about a dozen miles to the northeast of Sardinia. The total population of the whole republic does not exceed 60, but they elect a President every six years, and a Council of six members all of whom serve the State without pay. The women of this island go to the polls and vote with the men, and ever since it became a republic, in 1866, all public business has been transacted without turmoil; the elections taking place without any high party feeling or undue excitement.

Editor News Workers.

Editor W. V. Barry, of Lexington, Tenn., in exploring Mammoth Cave, contracted a severe case of the "Hick" which came through using Hickman's Arsenic Salve. He says it is another world's wonder. Cures Piles, Injuries, Inflammation, and all Bodily Eruptions. Only 25c. at all drug stores.

Child Drowned.

The little child, 2 years old, of Mr. Geo. Scott, who lives near Bayon De Chien, above Hickman, was drowned, Monday. Mrs. Scott was cooking supper, and the child playing in another house, fell into a basin containing about five inches of water, and was drowned.

Personal Journalism.

There is a mistaken idea that a newspaper ought to be forever and hence, in order to maintain its reputation as a fearless, independent journal. We have no patience with such an editor, newspaper ought to speak in no uncertain terms on all questions of principle, and to be strong, but the roasting of individuals does not belong to him, except in extreme cases, and not on the attack.

SOCIAL ENTERTAINMENT.

Quite a social event occurred at the residence of Mr. and Mrs. Blue Parham, in honor of their cousin, Miss Carrie Parham and brother.

After a few hours of pleasant conversation, music and dancing, our charming hostess invited us to partake of a number of delicious refreshments, as the moments rolled on, we were suddenly awakened to the time, and bidding our host and hostess good night, wishing we could repeat our pleasant time in the near future, which will never be forgotten by one who was a guest.

The attendants were: Carrie Parham, of Cottage Grove and George Metheny; Emma Mescham and Spear Parham; Rosa Watson and Chas. Bondurant; Lela Owens and Leslie Mescham; Lela Maddox and Arthur Townsend; Bessie Madzor and Sam Parham; Lucy Keasley and Ed Adams; Miss Parham and Charlie Parham; Maggie Henderson and Mr. Henderson; Lizzie Smith and Edward Henderson; Pearl Green and sister. A GUEST.

UP GO PRICES.

(Crittenden Press.)

"Six months ago we sold that wagon for \$7.50 less than we could afford to sell it now. Six months ago we sold wire for 20¢ per lb., but we must sell now at 40¢." The above are the words of a local dealer in the articles named. And the great advance in prices is not confined to these articles alone, but the price of everything the farmer has to buy has been advanced. It is because of an increasing demand for these articles, and a theory that confronts the agricultural classes and working people in general. Why this advance? DR. GATLING'S INVENTION.

Automobile Plov to Supercede Implement Now Used.

Chicago, Ill., Nov. 15.—Dr. Richard Gatling, who revolutionized methods of warfare by inventing the rapid fire gun that bears his name, is now engaged in turning the sword into the plowshare. After spending half a century in making instruments of death, he is directing his efforts to making machines that will be of benefit to mankind.

Dr. Gatling came to Chicago with Mrs. Gatling to arrange for the manufacture of his new inventions. With his automobile plov he expects to supersede the board plov that is now in general use for the preparation of land for cultivation. The machine will be built on the principle of the automobile, with disk plov so arranged as to do the work of the instruments now in use with greater facility and at a greater saving.

Dr. Gatling proposes to build the machine so that it can be operated by one man. It will do the work of eight men and twelve horses. The propulsion power will be either gasoline or oil. In addition to its primary use in the field, the machine can be used in driving a thrasher, shelling corn or for hauling purposes.

Foot Ball Bad.

The Mexican bull-fights are little, if any, worse than foot ball, and the casualties in the prize ring are not so great. Foot ball, bull fighting and prize fighting are of the same complexion, and one is about as Christian in its "athletic" features as the other.—Texas Baptist Standard.

A Prosperous County.

In Union county, Ga., there is not a bar-room, and 75 per cent. of the people own homes. Only one head of a family in the county does not own a home. There is not a dollar of bond on the county, and with the rate three times larger this year than usual the total State and county tax amounts to only \$1.15 on the \$100.

Let us hope that the Gatling plov will take the place of the Gatling gun in the estimation of all governments desirous of leading in the onward progress of civilization.

The bustling citizens of Tippa-ville have individually subscribed to a sufficient amount of stock to put in a fine new office. The work and work on the system will begin in a few weeks.

The vote polled in the smallest ever polled in a Governor's race in eight years and is over 150,000 less than polled in the Presidential race. Central and Eastern Kentucky did well by Goebel.

The annual report of the Fourth Assistant Postmaster General, issued last week, shows a total of sixty-two presidential post-offices in the State of Kentucky. There are 2,430 fourth-class offices, 458 being money order offices. The State ranks sixteenth in presidential offices, tenth in population, sixth in fourth-class offices and forty-eighth in compensation of fourth-class postmasters, the average salary being \$100.97 per year. The gross receipts of all offices in Kentucky were \$1,318,420.76.

Killed by British Soldiers in Africa.

Capt. G. G. Dennison is well known all over Africa as commander of the force that captured the famous rebel Gallahe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign, I bought a quantity of Chamberlain's Cough and Bronchitis Remedy, which I used myself when troubled with cold, cough, and given to my men, and it proved to be a most beneficial." For sale by Cowell & Towner, Hickman, and A. M. Shaw, State Jan., Druggist.

TEST WILL TO COME.

That the administration should not have been able to make a better showing than that of last Tuesday's election in twelve States is a fact full of significance as bearing upon the Presidential contest of 1900.

It is claimed by the administration party and by administration organs that a majority of the people of this country are in favor of the President's policy of American expansion into the Eastern Hemisphere. Where do they find an expression of this sentiment in the recent election?

In Massachusetts, where the fight was made almost exclusively on the expansion issue, the Democratic party made surprising gains. Ohio was held for the President only by the exertion of all the administration influence. In no State of the twelve did the vote show that the President's Philippine policy strengthened the Republican party.

The issue of imperialism, of expansion by the conquest of foreign territory, will come clearly before the people of all the States in 1900. There is reason to believe that the popular vote will pronounce unqualified public condemnation of this American policy. The Democratic party has cause for greater confidence than ever that the people of this country are not yet ready to repudiate American principles for the sake of foreign territory or the government by force of weaker peoples.

FROM GUNS TO PLOWS.

Doctor Gatling, who has shown such proficiency in inventing machinery for mowing down man, is credited with turning his mental facilities in an opposite direction and utilizing them in devising something for mowing down wheat. His devices for promoting the "planting" of his fellows are to be atoned for in some degree by his contrivance for planting corn and other things to build human beings and keep them alive.

The distinguished inventor of some of the most destructive agencies of modern warfare is arranging plans for the manufacture of an automobile plov which will be manipulated by a wheeled vehicle propelled by gasoline or oil.

We want the man to be Governor who has been elected by a plurality of the votes. If Mr. Goebel has been honestly elected he should be Governor, and if Mr. Taylor has been honestly elected he should have it. It is such a close finish that it takes the official count to decide it.

OBITUARY.

Died, at the family residence in Fulton, on Saturday evening, 11th inst., Gladys, the only child of Mr. and Mrs. John Ford.

Gladys was a bright and sweet little girl—the idol of four fond parents. "Thirteen" and to think how lonely home will be without Gladys' smiles. Let us think to Him, who doeth all things well, and say: "Thy will be done." Little Gladys is now an angel in Heaven, waiting and watching for us as we cross the dark valley of death. No valley of the little voice be heard again, for now it is stilled in death's cold embrace; yet we will not say No, nor will we let the heart-strings cease to vibrate once with the name of little Gladys, even to be remembered.

Tenderly close the eyes of our darling. Fold her tiny hands over her breast. Look her last look upon our dear face.

For she has entered the land of Rest. She has crossed death's stormy waters. Where trials cease for ever more. Where there'll be no more farewells. For in Heaven we'll part no more. Farewell, precious angel baby. You are on the golden shore. Bye and bye we'll meet you, Gladys. On that happy gold shore.

A FRIEND.

MRS. NELLIE BROWN.

On Thursday evening, Nov. 2nd, at 2 o'clock, we were called on to pay the last tribute of respect to all that was mortal of Nellie B. Brown, wife of S. B. Brown, who was born March 30th, 1862, and died Nov. 2nd, 1899, aged 37 years, 7 months and 7 days. She was the mother of seven children—3 boys and 2 girls—three dead and four living. She lived a consecrated and faithful member of the church until the day of her death. Her life was a noble example to all to great Nellie a long and useful Christian life. Many are the deeds of unselfish Christianity which she has done; many are the noble services which she has rendered the church of God; many are the friends she has made; but she is with them no more—her spirit has gone to God who gave it, and her body was committed to the dust, from whence it came. Sweetly she sank to rest as a tired child, with visions of the bright beyond where loved ones were waiting to welcome her, and when the dark, chilly waves of death closed around she struck out, but flung out into the shining light, knowing that she could not find beyond her Father's love and care. While we may not be able to understand it, yet we believe this dispensation is for our good and His glory. "This woman was full of good works and kind deeds, and she shall be rewarded." For sale by Cowell & Towner, Hickman, and A. M. Shaw, State Jan., Druggist.

Used by British Soldiers in Africa.

Capt. G. G. Dennison is well known all over Africa as commander of the force that captured the famous rebel Gallahe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign, I bought a quantity of Chamberlain's Cough and Bronchitis Remedy, which I used myself when troubled with cold, cough, and given to my men, and it proved to be a most beneficial." For sale by Cowell & Towner, Hickman, and A. M. Shaw, State Jan., Druggist.

False Pride.

When you see a youth who will do any sort of work no matter how menial it may be, rather than be idle, you can make up your mind that he amounts to something. The young man who would starve before he would do anything beneath what he conceives to be his dignity, is not made of the right stuff to cut much of a figure in this life.

All honest toil is honorable; there is nothing so morally degrading as that aversion to manual labor which is usually a combination of laziness and conceit.—Journal and Messenger.

It is not too much of a surprise to any one who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefits they have received from it. Of but little has been heard of threatened attacks of pneumonia. It has averted and of the child who it has saved from attacks of cough and whooping cough. It is a grand medicine. For sale by Cowell & Towner, Hickman, and A. M. Shaw, State Jan., Druggist.

Fair Play For Cuba.

"Ask me about the floor war," said General Fitzhugh Lee, just returned from his long period of service in Cuba, "ask me about the election, but don't ask me about Cuba or annexation. It's a mistake."

A General Lee has been from the first a very earnest and outspoken advocate of the granting of national independence to the Cubans and of extending them all possible assistance in the establishment of a Cuban Republic. It is evident from this expression that he is not at all satisfied with the outlook for the fulfillment of American pledges in that effect. And, as an officer of the United States army, he naturally hesitates to criticize the administration.

Made Young Again.

"One of Mr. King's New Late Pills each night for two weeks has put me in my teens again," writes Dr. J. H. Turner, of Pennsylvania, Pa. "They're the best in the world for liver, stomach and bowels. I'm a young man again. Every body, young and old, should try them." Sold at all drug stores.
